

## EVALSO Communication Infrastructure DEMONSTRATION

- Connecting a Video Conferencing (VC) system at low bandwidth (256kbps) over existing links (microwave) to ESO Paranal
- Connecting a Video Conferencing (VC) system at high bandwidth (1.5Mbps, i.e., 6x faster) over EVALSO fiber links to ESO Paranal
- Connection to the Cerro Armazones Observatory (RUB) over EVALSO fiber links to OCA.
